

EAGE

A WORLD OF LEARNING AT YOUR FINGERTIPS

The EAGE Short Course Catalogue offers **over hundred carefully selected short courses** in various disciplines, delivered by experienced instructors from industry and academia. It is being constantly reviewed by an expert Education Committee to provide high-quality continuous professional education for all geoscientists and engineers to keep abreast of the latest trends in their domains.

You can choose courses in the following categories:

EAGE EDUCATION

A WORLD OF OPPORTUNITIES FOR
PROFESSIONAL DEVELOPMENT

ARE YOU LOOKING FOR CUSTOMIZED TRAINING?

Most EAGE short courses are also available as **in-house training**: organized on company premises or online, and customized to better fit specific needs. A flexible and cost-effective option for the continuous professional development of your team.

BECOME A MASTERCLASS HOST

Let the Masterclass come to you! By hosting the programme at your location, you support EAGE Education while giving your organization unique benefits. Some of your members can attend for free, and you'll have the chance to connect with international professionals joining the training. A true win-win opportunity!

Data Science

- Machine Learning

Energy Transition

- Carbon Capture and Storage
- Geothermal Energy
- Wind Energy
- Hydrogen and Energy Storage

Engineering

- Petroleum Engineering
- Reservoir Management
- EOR/IOR

Geology

- Carbonate Geology
- Stratigraphy
- Geological Modelling
- Sedimentology

Reservoir Characterization

- Rock Physics
- Geomechanics
- Geochemistry

Training and Development

- Human Resources
- Communication

Geophysics

- Seismic Acquisition
- Seismic Processing
- Surface Imaging
- Integrated Geophysics
- Mineral Exploration
- Reservoir Characterization

Near Surface

- Environmental Geophysics
- Non-Seismic Methods
- Seismic Methods

UNLOCK YOUR POTENTIAL

CHOOSE EAGE EDUCATION

The European Association of Geoscientists and Engineers (EAGE) recognizes the vital importance of high-quality continuous professional education for geoscientists and engineers to keep abreast of the latest trends in the field. EAGE education programmes, accessible worldwide and online, feature multiple formats catering for various education levels and disciplines.

CLASSROOM TRAINING

One to two-day **in-person** short courses aimed at providing professionals and academics with key knowledge relevant to the latest developments in the subject area, together with peer interaction.

MASTERCLASSES

Comprehensive programmes of **multiple complementary short courses** taught in-person by leading field experts. Each course explores a different technical aspect of the main topic, providing you with a well-rounded and **in-depth learning experience**.

A DEDICATED LEARNING PLATFORM

Learning Geoscience, the education platform of EAGE, offers an integrated set of online courses and free learning resources to follow the latest education in geoscience and engineering remotely. Various formats are available to facilitate different learning needs.

ONLINE COURSES

Self-Paced Courses

Pre-recorded lectures with self-paced study materials, quizzes and exercises that you can complete at your own schedule over a set period.

Extensive Online Short Courses (EOSC)

Deep-dive experience with extensive self-paced online materials complemented with regular interactive sessions with the instructor.

Interactive Online Short Courses (IOSC)

Real-time instructor-led sessions of two to four days with the possibility to interact with the instructor and ask questions. These courses also include some of the most popular EAGE Education Tours (EET).

FREE LEARNING RESOURCES

Distinguished Lecturer Programme (DLP)

Webinars based on the best presentations from key EAGE conferences.

E-Lectures

Short videos on fundamentals and advances across geoscience and engineering.

How-to videos

Tutorials on various topics with advice by EAGE experts.

PARTNER COURSES

Carefully selected courses by experienced instructors from our partner organizations.

FIND EDUCATION OPPORTUNITIES FOR YOU

Our education programmes are scheduled throughout the year. Interested what's coming up? Take a look at the **education calendar** to see the latest schedule.

Interested in a course that is not scheduled? No problem! You can request it as in-house training. For personalized proposals and more information about programmed activities, contact us at education@eage.org

ACCREDITATION

Upon completing a course, you receive a Certificate of Attendance, including **Continuous Professional Development (CPD) points**.

EAGE is an official point provider for the European Geologist' title - a globally recognized professional accreditation established by the European Federation of Geologists. CPD Points awarded through EAGE courses can be used to claim and maintain one's EurGeol title, as well as to demonstrate your commitment to continuous professional development.
