## GUSTAVO SCLOCCHI THESIS AWARD

33<sup>rd</sup> edition

## ETTORE CARCIONE THESIS AWARD

3<sup>rd</sup> edition

The **2025-2026** editions of the two awards will be launched soon:

- The "**Gustavo Sclocchi**" Thesis Award, now in its **33rd edition**, focuses on energy topics within the Industrial sector.
- The "**Ettore Carcione**" Thesis Award, celebrating its **3rd edition**, is specifically dedicated to excellence in Geothermal Energy.

The awards are dedicated to PhD and Master's theses in **STEM** disciplines focused on Energy. The best theses will be recognized with the **Outstanding** award for superior quality and exceptional performance, the **Excellent** award for high quality and performance, in addition to specific **Special Mentions**.

The Award Ceremony will be held **in person** at the **Politecnico di Milano in May 2026**. Winners will have the exclusive opportunity to meet and discuss their work directly with the numerous industrial sponsors in attendance.

We strongly encourage all candidates to avoid the last-minute rush: you can already start uploading your material by scanning the QR code or clicking on the award title. Please remember that the required **Extended Abstract** serves as the initial go/no go screening; therefore, a timely and meticulous submission is essential for a thorough evaluation.
